DETAILED ACTION

Response to Amendment

1. Applicant's After Final Amendment and accompanying remarks filed 5/22/06 have been fully considered and entered. Claims 6,16,35,40 and 44 have been amended and claims 41-43 have been canceled as requested. Applicant's cancellation of claim 41 renders moot the prior art rejection made in section 3 of the Final Office Action. Applicant's amendments are now found sufficient to overcome the rejections of claims 35-40 and 46 rejected under 35 U.S.C. 103(a) as being unpatentable over Rothe et al., US 4,738,847 in view of Walter et al., US 4,950,545 or US 5,227,242 as set forth in section 3 of the Final Office Action. As such, claims 35-40 and 46 are now found allowable over the prior art made of record for reasons set forth herein below.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: Claims 35-40 and 46 are found allowable. Specifically, the combination of prior art fails to teach the claimed amine-modified polysiloxane composition. An updated art search did not produce any new substantial art for which to base a rejection and presently there is no motivation to combine references to form an obviousness type rejection.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynda M. Salvatore whose telephone number is 571-272-1482. The examiner can normally be reached on M-F.
